Lustrell Bleach Clean

Regular care

Protect from direct sunlight and keep at a minimum of 30cm (12 inches) away from direct heat sources. Routinely (weekly) vacuum with a soft brush attachment to remove airborne particles and wipe with a damp sponge or cloth. We recommend using a proprietary brand leather cleaner to protect against build-up of grime and premature wear.

Cleaning

Blot liquid spills with a clean dry cloth. Wipe with a clean cloth dampened with warm water. Clean using a proprietary brand leather cleaner. Do not use abrasive powder, detergent based or paste cleaners. Do not wet excessively. A soft bristle brush may be used to remove ingrained soil. Avoid scratching by gentle brushing. Wipe with a clean cloth dampened with water to remove residues. Dry in shade away from direct heat. Do not clean with hot water extraction machine. Do not clean with on-site dry-cleaning machine.

Spot Cleaning

Clean as above. For persistent marks seek professional advice.

Bleach Cleaning/Disinfection

Mix 5% of household bleach (sodium hypochlorite) with 95% water (One 250mL cup of household bleach in 5L of water). Pre-test cleaning method on a hidden part of the furniture. The bleach solution can remain on the vinyl surface for up to 10-minutes after which the bleach solution must be thoroughly rinsed. To rinse, wipe the surface several times with a cloth wet with clean cold water and allow to dry at room temperature. Furniture must be dry before being reused.

WARNING: Sodium hypochlorite bleach is corrosive. Avoid contact with the skin. Use PVC gloves and follow the safety instructions of the bleach manufacturer. Please also be mindful not to apply the bleach solution to the frame of the furniture or any floor coverings without further testing.

When arranging your furniture take care to avoid contact with external walls or radiators. Annual professional cleaning recommended.

WARNING: Please note silicone based cleaners should not be used
