

WARWICK

SOFTLY METALLIC, FINELY VEILED AND QUIETLY LUMINOUS - EDRIS by Warwick

This ethereal sheer delivers understated elegance. EDRIS is defined by a subtle metallic shimmer that highlights depth and movement, creating a striking, multidimensional drape. Designed to elevate modern interiors, it is particularly impactful in expansive spaces where light and scale can be fully appreciated.

- DESIGN:** Woven with irregular yarns into a fine netted structure, EDRIS creates a delicate, shimmering sheer with a refined, minimal presence. Its textured construction delivers a softly reflective, light-filtering effect with subtle movement, while the synthetic composition provides durability without compromising a premium hand feel.
- APPLICATION:** Designed with a usable width of 320cm and a self-weighted hem, EDRIS puddles into softly rounded, anchored forms. Its continuous application enhances versatility and expands design possibilities, making it suitable for expansive window treatments and commercial interiors.
- COLOURWAYS:** EDRIS is available in a classic palette of metallic shades including Snow, Pearl, Ivory, Chai, Glacier and Gunmetal. These neutral tones elevate the high-end character of the cloth, elegantly complementing interior schemes with ambience.
- RATING:** Oeko-Tex certified with an AS1530.3 fire rating.
