

LINEA

NATURAL STONEWASHED LINENS WITH RELAXED ELEGANCE

Natural, soft and stonewashed, LINESTA is a fusion of European finesse and pure linen fibre. Gentle in palette with an organically slubbed nature and an extended colour variety, this continuous 300cm wide-width drape will adorn an array of interiors with a casual, calm and sophisticated finish.

Application: This piece-dyed plain weave has a continuous 300cm width and is formed from fibres sourced from both France and Italy. Serene and sophisticated, LINESTA's stonewashed finish flaunts an enticingly soft feel and organic matte texture. Washable, this linen's raw yet refined aesthetic makes it idyllic in the creation of genteel drapery in all sizes, to smaller accessories like lampshades and cushions.

Colourways: Originally in 11 colours, LINESTA has expanded with an additional 10 hues, offering a range of pigmented mid-tones to extend and complete the colour options within this popular collection. For classic neutrals, LINESTA introduces shades White, Pearl and Alabaster, while cooler contemporary pastels can be found in Quartz, Fog, Oyster and Mist. Additional urban tones can be seen in Stone, Shadow and Steel, whereas shades Honey and Terracotta offer warm earth baked hues. Classic Navy, Denim and Duckegg provide cooler pigmented tones that offer peace and tranquility. And lastly, Coral brings a warm peach that is bright and inviting, while Blush and Rose offer a more traditional take on pink hues.

Rating: LINESTA is 300cm wide, continuous, washable, Oeko-Tex certified and made from 100% European linen fibre. Stonewashed and sophisticated with a textured and transitional palette, this linen collection brings an organic luxury and colour to a selection of spaces, relaxed and refined.
