

WARWICK

CREATE A CALMING AMBIENCE WITH SUBTLE TEXTURED SHEERS - ACADIA by Warwick

Induce tranquility and a sense of calm with ACADIA. Organic in style, ACADIA is a transitional plain sheer that is perfect for biophilic design spaces offering a natural feel. With a continuous 300cm wide width, this collection will rest beautifully in residential and commercial settings, providing ease and textural appeal.

- **DESIGN:** Transitional and soft to touch, ACADIA is a plain, yarn dyed, woven sheer that embodies a two-toned effect that subtly shifts through movement. Versatile with a gentle sheen that adds to ACADIA's evocative nature, this collection is brilliant for adding dimension.
- **APPLICATION:** From calming interiors, to casual spaces, ACADIA will bring relaxation and a romantic feel to any room it features in. With Oeko-Tex certification, ACADIA offers a generous 300cm continuous wide width and can be used as a privacy sheer or combined with a solid, making it ideal for creating relaxed drapery or soft Roman blinds.
- **COLOURWAYS:** In five neutral colourways, ACADIA's timeless palette offers a tone to suit any interior. Pebble brings a popular linen option, while Pannacotta provides a traditional ivory. For a cooler alternative, Salt is a crisp white and Steel, an icy silver for added complexity. Featuring a combination of warm taupe and cool silver, Pewter is a standout shade with its stunning two-toned effect.
- **RATING:** This 300cm continuous wide width sheer is ideal for those wanting to create a relaxed environment with an organic, textured aesthetic. Oeko-Tex certified, ACADIA's neutral palette, two-toned, soft texture and casual finish will bring peaceful moods and tranquility wherever it is featured.
