

WARWICK

ANCIENT MYTH MEETS MODERN WEAVE - ATTICA by Warwick

ATTICA is a geometric revolution with ancient inspiration where the rhythm and movement of bold patterns are crisp with definition and tactility. A collection that is created with two contrasting designs using repetition and geometric motifs that interplay with colour and texture transforming the fabric into art and dimension.

- **DESIGN:** ATTICA showcases a detailed jacquard weave design, it is abstract and architectural whereas HADES is rich with primitive influence. Both exhibit a contrast of dry and plush chenille on a linen-look base. ATTICA and HADES are bold expressions of design where structure meets softness and contrast becomes balance.
- **APPLICATION:** Rated heavy commercial, and railroaded for easy application, ATTICA & HADES will work boldly across residential and commercial spaces, the texture and pattern are accommodating for high traffic use and can be featured across furniture on mass or used as accent pieces to add expression to a room.
- **COLOURWAYS:** A striking balance between depth and vibrancy, the ATTICA palette weaves together rich colours and sophisticated neutrals. Jewel-like mulberry, gold, and terracotta add a warm energy, while deep olive, grey, and charcoal are grounding and versatile. A suave addition, denim, ensures the palette remains effortlessly modern with timeless appeal.
- **RATING:** Heavy Commercial with Oeko-Tex certification, Halo easy-clean characteristics and an AS1530.3 fire rating. Certified for quality management system ISO9001
