

# WARWICK

## Bendigo

Our new name for 'Eureka'

Bendigo Plain Hanger with texture close up

'Bendigo'. It's the name we've chosen to launch this replacement for our Eureka plain, now eclipsed by a much broader palette of fresh decorative colours. For our customers, we really have struck gold!

Tested to Heavy Domestic and General Commercial Performance standards, 'Bendigo' is a perfect plain co-ordinate for a broad range of fashion styles. Bendigo is a yarn dyed\* chenille\* fabric woven on sophisticated jacquard looms and licensed as part of our growing range of Australian Made fabrics. It also joins our extensive group of Halo fabrics, tested to exacting standards for colourfastness, abrasion and inherent stain resistance and safety\*.

Halo fabrics are also resistant to pilling, mould and mildew and impervious to attack by moths, silverfish and insect pests. 'Halo' is the Warwick hallmark for high performance easy clean fabrics. They are also compatible with independent retail fabric protection and guarantee programs. These programs enhance the fabric's ability to resist liquid staining by providing a spill repellent surface and/or warranties to cover accidental damage.

\* Yarn Dyed – Yarn colours are individually dyed prior to weaving.

\* 'Chenille' – Often mistakenly referred to as a fibre, comes from the French word for caterpillar due to its characteristic soft touch yarn construction.

\* Tested for absence of Free Formaldehyde (ISO14184-1:1998)
