

WARWICK

A NOSTALGIC TRAIL OF ENCHANTING AUSTRALIAN FLORA - HEPBURN by Warwick

Overview: HEPBURN adds a dual-purpose, mid-scale classic leaf trail to the existing Australian inspired fabrics run by Warwick. With its whimsical and nostalgic design, HEPBURN brings elegance and movement to a space with an organic watercolour flow.

- **Inspiration:** This transitional design draws inspiration from the flowering gum trees of the classic Australian bush. Its stylized pattern captures the relaxed essence of the outdoors on its natural blend base.
- **Design:** Designed in the Melbourne studio, HEPBURN is rotary screen printed on a plain weave cloth. The matte finish, natural fibre base features an irregular crosshatch texture with an organically streaked slub. This combination adds and enhances HEPBURN's romantic design and serene nature.
- **Application:** Dual-purpose with a general commercial rating, HEPBURN adds a beautiful botanic to the Warwick Naturally brand. With its organic print pattern, this fabric offers a collection of sophisticated textiles that bring playful movement to a space. A perfect choice for cushions, lampshades, drapery and large or small-scale upholstery.
- **Colourways:** This painterly leaf features five colours. Eucalyptus has a natural base cloth with turquoise, fuchsia and magenta. Dusk is a classic neutral option with hints of khaki and slate blue. Desert brings delectably trending tones of orange, coral and chartreuse for a more playful option. Electric combines colours of cobalt, navy and ultra-marine with pops or rust for a more bold statement. Teal brings a saturated background with pops of pink and aqua to the mix creating a more dramatic choice. Tonal and textured, each colourway offers a selection of hues to work back with and blend into your interior scheme with ease.
- **Rating:** HEPBURN gives this classic leaf-trail a transitional nature with its mid-scale pattern inspired by Australian flora and fauna. This dual-purpose, Warwick Naturally print offers a tonal trail of colour – perfect for blending into existing schemes or layering into any residential or general commercial environments.
