

WARWICK

BEAUTIFULLY BOTANIC – LIDA by Warwick

Overview: Boasting a whimsical floral print in an array of gorgeous botanical watercolours, LIDA is a transitional fabric that is perfect for both contemporary and traditional interiors. A dry soft cotton texture, LIDA offers a sophisticated style statement that is delicate and charming. Providing a more organic take on traditional floral prints, LIDA is a beautifully refined range that can be incorporated into existing design schemes with ease.

- **Inspiration:** Hand painted in Warwick's Melbourne studio LIDA draws inspiration from the vintage botanical designs popular in the 1930's. The soft organic botanical combines a pastel colour pallet with digital print technology to create an aesthetic that is balanced, elegant and timeless.
- **Application:** With dual purpose characteristics and printed on a 100% cotton cloth, LIDA is ideal for those seeking a decorative option. Suitable for use in both domestic and commercial environments, LIDA is a versatile and colourful range that adds a soft organic feel to statement pieces such as stylish sofas, statement drapes and luxurious accents.
- **Colourways:** Faded botanical tones feature across the collection, with bright colours complemented by more neutral shades. Sorbet and Rouge exhibit a bold sense of sophistication offering highlights of vermillion or magenta, while Daffodil and Dew offer soft style statements in tones of blonde and steel blue. All colours are then pared back with understated hues of sage greens and earthy greys for the perfect balance.
- **Rating:** A new Warwick Naturally texture made from a dry 100% cotton, LIDA is a dual purpose fabric that is highly versatile, with gorgeous watercolour prints that will stand the test of time in both heavy domestic and general commercial settings.
