MACLAREN. EMIR

HIGHLIGHTING BOLD TEXTURE WITH A SPECTRUM OF HUES FOR PERENNIAL STYLE – MACLAREN by WARWICK

MACLAREN is a robust collection using the charm of texture, tactility, and multi-toned colourways to create a distinctive look that is both refined and lively.

- **DESIGN:** MACLAREN and EMIR reinterpret a traditional technique with beautiful interlacing texture that’s dynamic in structure and dimensional in colour. MACLAREN is a chunky, multi-toned chenille with pronounced basket-weave variation, while EMIR is a timeless, reliable dry finish woven plain. Both delivering a tactile and bold texture that is both sensory and sophisticated in design.
- **APPLICATION:** Ideal for use throughout domestic and commercial applications where architectural zones require the use of textiles to elevate each space with colour and rich texture. Presenting with a traditional formality, the playfulness of MACLAREN is delivered by its statement style with an enduring composition that can handle high-traffic durability.
- **COLOURWAYS:** Designed with multi-tone colourways, MACLAREN has an artisanal, cultivated palette that uses contemporary portrayals of colours such as lilac, paprika, charcoal and taupe. The spectrum of colour in this collection covers all bases from bold blacks, sensual creams to the popular nostalgic tones of red, olive, and blue. Easily coordinated with brighter tones or as an enriching companion on its own, MACLAREN and EMIR will also compliment natural timber finishes and the rawness of handcrafted materials.
- **RATING:** Polyester and cotton blend that is Heavy Commercial with Oeko-Tex certification and an AS1530.3 fire rating.
