Ardo

Our four letter word for 'top seller'

Ardo Plain Hanger with texture close up

Sitting high on our list of best selling upholstery plains is 'Ardo', now available in an impressive range of 37 multi purpose colours from popular neutral tones to funky brights. 'Ardo' combines specialty man-made yarn blends of Polyester and Olefin* fibres in a soft touch Chenille* construction. It is most popular for its three dimensional texture and yarn dyed* colour consistency.

'Ardo' has been tested to General Domestic performance ratings and is part of our 'Halo' fabric range. As such it is woven to precise specifications and tested to exacting standards for colourfastness, Abrasion, inherent stain resistance and safety*. Halo fabrics are also resistant to pilling, mould and mildew and impervious to attack by moths, silverfish and insect pests.

'Halo' is the Warwick hallmark for high performance easy clean fabrics. They are also compatible with independent retail fabric protection and guarantee programs. These programs enhance the fabric's ability to resist liquid staining by providing a spill repellent surface and/or warranties to cover accidental damage.

* 'Olefin' - Common alternative name for 'Polypropylene' yarn.

* 'Chenille' - Often mistakenly referred to as a fibre, describes a particular characteristic soft touch yarn construction.

* Yarn Dyed - Yarn colours are individually dyed prior to weaving. This is generally understood to provide greater colour consistency between production batches.

* Tested for absence of Free Formaldehyde (ISO14184-1:1998)
