ARTEMIS

## RAW BEAUTY WITH A NATURAL AESTHETIC - ARTEMIS by Warwick

Inspired by nature, ARTEMIS is a transitional, plain, and continuous semi-sheer drapery that creates a relaxed and soft aesthetic. Named after the Greek Goddess, ARTEMIS is versatile and sits effortlessly in an array of spaces, creating casual and rustic moods and interiors.

- **DESIGN:** Featuring a jacquard woven design, ARTEMIS embodies a slub yarn that creates variant textures within its structure, giving it a natural, sophisticated and visually appealing semi-sheer finish. Dry to the touch and chunky nature, ARTEMIS is also piece dyed, offering a variation in colour which creates a subtle dual tone.
- **APPLICATION:** From comforting residential, to rustic commercial interiors, ARTEMIS takes on an organic and relaxed aesthetic, and creates textural atmospheric spaces. Continuous and reversible with a generous 300cm wide width and an FR rating, this collection is easy to implement and create simplistic, yet, sophisticated spaces.
- **COLOURWAYS:** ARTEMIS offers an extensive muted colour range, making it easy to style any interior space, whether old or new, with its timeless appeal. Colours Snow and Ivory create soothing moods for an interior, while warmer tones such as Linen, Pumice, Mist and Straw bring a more natural selection to the range. The addition of Sepia and Walnut provide warmer options, offering darker hues which emulate nourishing and earth inspired tones. Cooler dark tones of Graphite, Eclipse, Admiral and Fossil give extensive options for any type of grey, while Cloud and Silver bring a lighter choice to the mix.
- **RATING:** This reversible and continuous 300cm wide width drapery is semi-sheer and creates a natural aesthetic due to its raw beauty. With a AS1530.2 fire rating and its sophisticated texture and colour range, ARTEMIS is an ideal modern drapery for both commercial and residential spaces.
