

WARWICK

RADIATING LUXURY – Aurora by Warwick

Overview: AURORA is Warwick's newest release, premium quality plain. Radiating a brilliant sheen, AURORA delivers a sophisticated element of depth, dimension and a sumptuously soft touch. Relaxing the mood, subtle textural variations provide a unique sense of natural luxury. Constructed with a fine weave chenille, AURORA captivates with a graceful drop, yet with the commercial strength of a technically advanced product.

- Inspiration: Bringing together lustre and natural texture, AURORA is a new and innovative plain that exudes polished style.
- Application: A versatile upholstery and drapery range to provide a timeless source of design inspiration supported by hard wearing capabilities for sofas and occasional chairs, ottomans, cushions, drapes, Roman Blinds and lampshades.
- Colourways: AURORA's inherently lustrous finish imbues a neutral colour palette with a refreshing sense of sophistication. Carefully considered accent colours of Lichen, Coral and Lagoon offer brighter options for a timely, modern approach.
- Rating: AURORA is premium fabric meeting high performance, dual purpose heavy commercial standards, is FR tested and has Oeko-Tex certification.
