

WARWICK

BOLD PATTERN, UNTAMED TEXTURE, AND PRIMAL DESIGN – SERENGETI by Warwick

More than an outdoor collection, SERENGETI brings together four designs that celebrate bold expression and decorative texture. Created to shape a maximalist outdoor setting, the collection draws on an elemental theme, balancing rich tactility with confident pattern to deliver character and design-led impact across exterior and interior spaces.

- DESIGN:** Designed for outdoor areas and transitional interiors, SERENGETI balances performance-driven construction with decorative appeal. Part of our SUNDEC, Halo Easy-Clean and Encore ranges, the collection is yarn-dyed from recycled olefin and polyester, bleach cleanable, designed to withstand chlorine, mould resistance with UV stabilisation and lasting colour performance. Durable jacquard constructions add tactile depth across four designs: Zuri, a zebra-inspired pattern; Avela, an off-set checkerboard design; Serengeti, a timeless broad stripe; and Stradbroke, a bold two-toned boucle'.
- APPLICATION:** Each fabric in the collection is designed to work harmoniously together across pattern, texture and colour, supporting fluid design continuity between exterior zones and interior living spaces. The designs can be richly layered to create depth and contrast within eclectic schemes, or pared back with refined plains for classic and minimalist styles across both high-traffic residential and commercial environments.
- COLOURWAYS:** SERENGETI's colour palette is carefully balanced, combining natural hues such as terracotta, canola and pine with core neutrals and a classic navy. Woven on a neutral base, each design features complementary light and dark yarns that reference one another, supporting cohesive schemes. Navy, Gull and Sand evoke a timeless nautical aesthetic, while Coral, Beach and Moss introduce eclectic vibrancy. With superior colourfastness, the collection is well suited to outdoor environments exposed to direct sunlight, moisture and high use.
- RATING:** Woven from recycled olefin and polyester, this yarn-dyed collection is part of our SUNDEC and Encore ranges. It features Halo Easy-Clean technology, ISO9001, Oeko-Tex certified and tested to AS1530.3 fire standards.
