BERKLEY

DIMENSIONAL TACTILITY WITH NATURAL IMPERFECTION – BERKLEY by Warwick

BERKLEY is a richly textured upholstery that brings warmth and visual depth through its earthy, natural palette and tactile surface. Designed to respond to the growing demand for softness and dimension, it offers an accessible and versatile solution for interiors that celebrate imperfect, material-led design.

- DESIGN:** Woven with a decorative interlaced construction, BERKLEY features irregular, multi-coloured yarns in warm and neutral tones. This defining characteristic allows the upholstery to integrate seamlessly into a wide range of colour schemes, while individual yarn shades can be echoed in accessories and trimmings to create a cohesive interior. Its striking looped weave and textured pile deliver a distinctive finish that references both traditional bouclé and chenille. The interplay of tonal variation creates subtle dimensionality, making it particularly suited to voluminous and vintage-inspired furniture forms.
- APPLICATION:** BERKLEY delivers sophisticated depth and tactile interest without compromising on performance. Designed with Halo stain-resistant protection and a durable synthetic composition, it is ideally suited to both high-traffic residential and commercial interiors. Its malleable construction and ultra-soft handle allow for ease of upholstery across both curved and angular forms, ensuring precision and adaptability across multiple applications.
- COLOURWAYS:** Available in 11 natural and cool neutral colourways, BERKLEY is inspired by dusty rural landscapes, with Earth, Limestone, and Desert offering grounded warmth. Paprika, Fern, and Ocean introduce considered vibrancy, while cool, foundational neutrals are expressed through Granite and Glacier. This nuanced colour palette, combined with its dry, natural handle, defines BERKLEY as a contemporary alternative to plain upholstery.
- RATING:** Heavy Commercial rated with Halo easy-clean properties, Oeko-Tex certification and an AS1530.3 fire rating.
