

WARWICK

TAILORED FOR THE MODERN FRONTIER - CANYON by Warwick

The modern frontier isn't a destination, but a way of living. Defined by an appreciation for honest craftsmanship and lasting design, it is shaped by spaces that tell the story of years lived, memories made and families evolving. CANYON is for spaces and objects that are lived in, loved and layered over time, where every mark, memory and milestone adds to the story.

- **DESIGN:** Designed to emulate the richness of genuine leather, CANYON pairs a refined grain with subtle tonal variation to create a surface that feels authentic and naturally evolved. The heavier-weight construction complements its considered surface detailing, giving CANYON an honest, grounded quality that feels texturally soft, and visually aged.
- **APPLICATION:** Engineered for demanding interior applications, CANYON combines the refined character of leather with the performance required for residential and commercial interiors. Enhanced with WarGuard for added protection and practicality, CANYON offers a durable and considered alternative to traditional leather, with subtle grain and tonal variation creating an authentic leather-like appearance and beautiful matt finish.
- **COLOURWAYS:** CANYON'S palette draws from the natural tones of traditional leather, spanning warm tans, rich chestnuts and deep earthy browns through to darker, grounded hues. More stylised shades introduce muted greens, deep burgundy and softened neutrals, bringing a contemporary dimension to the collection while retaining its natural sensibility.
- **RATING:** Heavy Commercial rated with Halo easy-clean properties, Oeko-Tex certification and an AS1530.3 fire rating plus the protective confidence of the WarGuard treatment, guarding against stains without harmful chemicals.
- **WORKROOM NOTE:** Venting on cushions required. This product is not a vinyl, it's an upholstery fabric and should be applied according to upholstery fabric requirements.

WarGuard Treatment

Applied at the mill, WarGuard is a non-toxic treatment formula applied at the mill.

The WarGuard treatment forms an invisible barrier around each fibre, reducing stain visibility and assists with practical and convenient cleaning.

Available on a selection of stocked residential and commercial fabrics, WarGuard products are ready for dispatch with no waiting times.
