

# WARWICK

## A RELAXED STYLE STATEMENT – COAST by Warwick

Overview: Serene and timeless, COAST combines a stylish ombre effect with an organic colour palette to create a tranquil space that radiates a refined sense of comfort and well-being.

Presenting a sophisticated sheer in a functional 300cm wide width, COAST offers contemporary style with a naturally relaxed feel. Perfect for urban apartments and coastal living, this soft sheer features continuous self-weighting characteristics to provide an overall construction that is lightweight and fluid.

- Inspiration: Drawing influence from traditional Japanese dying techniques, COAST offers subtle design with a tempting ombre effect that uses soft blending to create a unique impression of colour.
- Application: COAST combines plain weave construction with a digital print overlay for a perfectly balanced sheer structure and relaxed wash of colour. With a convenient wide width of 300cm and continuous self-weighting characteristics, this breezy sheer will drape effortlessly across windows, allowing light to filter gently throughout the room without compromising on privacy or style. Boasting a dry handle that is soft and silky to touch, COAST's soft colour gradient is ideal for dreamy drapes and luxurious lampshades.
- Colourways: Anthracite is a strong colourway with dark tones perfect for urban interiors and minimalist style, while Pacific is a statement hue that is contemporary and refined. An on-trend pastel tone, Seaglass is a soft and casual option that will refresh any room, while Pumice provides a gentle and neutral colourway that complements existing colour palettes with ease.
- Rating: A refined printed sheer that offers continuous self-weighting, COAST is a fire rated fabric that is perfect for 300cm wide-width drapery in both residential and commercial contemporary interiors.
