

WARWICK

A TENACIOUS AND TEXTURED WOOLLEN BLEND - COMPONENT by Warwick

Overview: COMPONENT brings strength and tactility together in this densely textured woollen blend. Using New Zealand wool, this weave adds organic contrast in a selection of contemporary colours.

- **Design:** Featuring a selection of fancy yarns, COMPONENT's chunky jacquard weave creates a raw and irregular lineal texture with a cobbled depth. This fabric's dense and durable mixed yarn construction give COMPONENT a subtle matte appearance with a soft and woolly finish.
- **Application:** Heavy commercial and dual-purpose with an AS1530.3 fire rating – this fabric offers a tenacious and textured plain suited to most cushions, upholstery and drapery applications. Perfectly suited to high traffic areas, COMPONENT is the ideal choice for education and office fit-outs to calm and contemporary residential settings.
- **Colourways:** This woollen blend presents a selection of 13 contemporary colours. Neutrals are found in Pebble and Concrete. Eclipse and Surf bring cool and calming skus to the collection. Colours of Coral and Flame add warmer hues to the mix. To create added contrast and tone, COMPONENT features a flecked black, white or gold yarn woven into each colourway – adding subtle movement and direction.
- **Rating:** COMPONENT is AS1530.3 fire rated with heavy commercial, dual-purpose properties. This New Zealand woollen blend offers engaging visuals and tactility, creating a contemporary wool collection. Ideally suited to almost any situation in contract, commercial and residential markets with a selection of bold colours with dynamic depth and invigorating texture.
