

WARWICK

COMFORT IN FULL STEREO - DELRAY by Warwick

Turned up in texture and informed by the underground energy of the mid-century era, DELRAY blends comfort with confident, lived-in appeal.

- **DESIGN:** Drawing on post-modern and retro influences, DELRAY balances bold expression with everyday versatility. A strong twill weave forms the foundation, layered tonally to create depth, where it echoes the Bauhaus principle of design that is both decorative and functional. Geometrically rhythmic and confidently structured, DELRAY presents a chunky, dimensional weave, using thicker chenille yarns, its tactile finish feels considered, fun and designed to endure.
- **APPLICATION:** DELRAY'S modernised composition with soft hand-feel is perfect for both residential and commercial use. A texture-heavy solution with the strength to meet the demands of busy households plus the protection of WarGuard, a treatment at the forefront of green technology, using a water-based formula that's free from harmful chemicals. Its transitional aesthetic will sit comfortably across a range of interiors and applications, whether at scale in a corporate office, or on smaller feature furniture in the home where statement-making appeal and practicality are required.
- **COLOURWAYS:** Grounded in four distinct colour stories, the palette moves confidently between cool and warm, refined and expressive. Each variant is developed through a considered mix of multiple yarn colours creating depth, movement and subtle variation throughout the weave. Modern industrial neutrals sit alongside moody blues and purples with a nod to post-modern 70s glamour, balanced by warm, earthy tones that speak to mid-century texture and richness. Soft organic greens and layered neutrals complete the collection, offering a calm, Japandi-inspired direction that feels both contemporary and enduring across Australian interiors.
- **RATING:** A 100% polyester, yarn-dyed collection that is Heavy Commercial rated with Halo easy-clean properties, Oeko-Tex certification and an AS1530.3 fire rating plus the protective confidence of the WarGuard treatment, guarding against stains without harmful chemicals.
