

WARWICK

BOTANICAL BLOOMS - FLOWERBOMB by Warwick

Overview: FLOWERBOMB features a majestic, ethereal bouquet of peonies, roses and daisies that cascade softly down a shadowy background. Classic, elegant and opulent, the design gives a modern-day interpretation of The Dutch Masters painting style.

- **Application:** The transitional design is digitally printed on the popular Mystere base that gives a soft, velvety affect that will transform any Residential or Commercial piece with tactile appeal and satisfying depth of colour.
- **Design:** FLOWERBOMB's botanical prints offer a dramatic explosion of colossal flowers and budding rosettes that float across the foreground. Motifs move from smaller buds to darker, moodier blooms that are unapologetically opulent and will inject any room with energy and modern appeal.
- **Colourways:** The expansive bloom is available in three statement colours: Scarlet which favours a warm and traditional floral treatment; Violet is fresh and fashion-forward, and Frost which is cool and decadent. This on-trend design is moody and mysterious regardless of which colour catches your eye.
- **Rating:** Featuring Halo characteristics of enhanced durability and easy cleanability, an additional stain repellent treatment, and FR test results, FLOWERBOMB's complementary colourways create a very versatile collection that is ideal for upholstery purposes in Residential and Commercial settings.
