

WARWICK

NATURAL, NATIVE & DREAMING OF ROMANCE - HINTERLAND by Warwick

OVERVIEW: Serene, nostalgic and romantic, HINTERLAND is a stunning fabric that brings the beauty of the outside world indoors.

Hand painted in the Warwick studio, HINTERLAND offers soft cotton and linen fibres to create a mood that is relaxed, organic and contemporary. Boasting a unique mix of banksias, waratahs and flowering gum leaves, this expressive native floral will bring a timeless aesthetic to any interior with a whimsical feel that is casual yet refined.

- **INSPIRATION:** Reminiscent of taking a walk in the distinctive Australian bush, HINTERLAND draws inspiration from the native flora and rich earthy colours that can be found across the vast landscape. A modern and sophisticated take on more traditional floral designs, this beautiful fabric creates a flowering trail that is rustic and romantic.
- **APPLICATION:** Featuring a soft blend of cotton and linen, HINTERLAND is a dual-purpose fabric that is perfect for statement drapes and sofas, feature chairs and bedheads, or highlight scatter cushions. A sophisticated fabric with a natural base cloth and screen-printed overlay, HINTERLAND's unique slub yarns and natural specks enhance the organic aesthetic and natural composition of the beautiful hand painted design.
- **COLOURWAYS:** Charcoal is a sophisticated colourway with complementary tones of grey, pastel pink and buttercup, while Cobalt offers an on-trend colour scheme with fresh lemon tones and bright contemporary blues. Neutral and relaxed, Natural presents hints of grey and gold for a look that is slightly more traditional, while Spring's contrasting tones of magenta, orange and teal are perfect for warm and vibrant interiors.
- **RATING:** A Warwick Naturally fabric, HINTERLAND's dual-purpose characteristics are ideal for both drapery and upholstery in relaxed settings. Inspired by native Australian flora, HINTERLAND's organic design style is perfect for both traditional and contemporary interiors.
