## SPEAKING IN TEXTURE THAT FEELS ETHEREAL, EVERY THREAD BECOMES AN ARCHITECTURAL DETAIL – INARI by Linia

More than material, INARI is an invitation to pause, to feel, and to find balance in the spaces we inhabit. With a texture that invites touch, there is a quiet woven dialogue between its outdoor inspiration, and its indoor design expression.

DESIGN: INARI is a multi-sensory textile experience, shaped by biophilic design principles where nature inspires and function responds. Crafted from naturally derived materials, it brings authenticity to both surface and form, with an unearthed hand-feel and undulating slub-yarn, recalling a style that has been shaped over centuries.

APPLICATION: INARI is a sheer that is ideal for diffusing harsh sunlight, softening each space with a continuous organic and restorative appeal. Designers will have the freedom to layer subtly or compose boldly, with INARI's linen and wool composition offering breathability, strength and an exposed natural character that frames a room with quiet authority and ease.

COLOURWAYS: Breaking from traditional drapery conventions, the palette moves confidently between rich pigment and grounded neutrality. Inspired by elemental forces from terrain to atmosphere, shades such as Clay, Olive and Storm capture the rawness of earth and foliage, while timeless neutrals like Natural, Angora, Fog and Mist bring balance and calm.

RATING: Yarn dyed, wide width with Oeko-Tex certification.

WORKROOM NOTE: Puddling is preferred to compensate for potential dropping due to weave construction.
