

WARWICK

SHEER STYLE, PURE PERFECTION – Jatani by Warwick

Overview: JATANI introduces a new sheer collection, distinguished by its open weave and raw touch. The organic and airy sheer allows a gentle light to permeate the room while enhancing a sense of privacy. A flowing, jacquard weave pattern adds lustre and texture and coordinates freely with diverse interior schemes. The collection comes in a selection of neutrals ranging from fresh, light tones to deeper, sensual hues.

- Composition: 100% Polyester
- Inspiration: Timeless and classic, the ogee design is reinterpreted to flow around windows and glazing, filtering light and softening the views.
- Application: A continuous lead weight runs the length of the wide width (300mm), achieving seamless sheer perfection across expansive architectural windows and Roman blinds.
- Design: Simplified, ogee inspired curves weave to form a trellis-like design that gently cascades down the yarn dyed fabric. The clip jacquard pattern is dyed separately and presents in similar tones, for a subtle layered look that imbues the collection.
- Colourways: An array of statement neutrals in relaxed, CLASSIC - Snow, Linen and Quartz, and sophisticated, on point CONTEMPORARY – Sepia and Steel.
- Rating: The fire rated sheer is suited to commercial applications while the delicate design and versatile neutral shades will enhance any residential interior.
