CELEBRATE WORLD CULTURE AND TRAVEL WITH TROPICAL PATTERN – KAAPORI by Warwick

Be captivated by the vibrant and mysterious ways of the jungle with KAAPORI. Influenced by British colonial style, KAAPORI is a versatile, worldly collection that celebrates the junglecore aesthetic with its fun, tropical design — perfect for coastal spaces or creating eclectic, nomad settings that bridge traditional with modern style.

- **DESIGN:** KAAPORI is digitally printed onto a woven, natural fibre blend base cloth, embodying a soft, micro texture and dry finish. Bringing a washed finish for a relaxed yet sophisticated feel, KAAPORI features a colourful tropical palm tree design with monkeys for a look reminiscent to the nature of the jungle.
- **APPLICATION:** Warwick Naturally, KAAPORI is suitable for residential and general commercial applications. Bound to add a sense of relaxation and playful moods into any interior, this dual-purpose collection is ideal for those wanting to bring the outdoors indoor by creating nature-inspired sofas and cushions for a statement piece, as well as whimsical lampshades and eclectic drapery.
- **COLOURWAYS:** In five distinctive colourways, KAAPORI offers a neutral base with a splash of fresh hues for a warm, summery aesthetic. Passionfruit brings a fun, quirky and on-trend multi-coloured option for an enticing style, while Nomad is a great alternative for a subtle finish. For an earthy feel, Sunset provides warmth with its burnt, orange tones; and Lagoon, a cool and refreshing choice for calming settings.
