## A RELAXED ARRAY OF ALFRESCO COLOUR - KUATA by Warwick

Overview: An adaptable outdoor fabric for all situations, KUATA adds a textured, chunky weave to our SunDec outdoor brand. Inspired by relaxed and carefree coastal living - this transitional fabric creates a myriad of moods in a palette that pairs with many of our existing outdoor ranges.

- **Design:** KUATA features a yarn-dyed, chunky plain-weave construction. This gives it a robust look with a heavy commercial rating. The thick, multi-coloured yarns have a matte, textured finish that has a soft, dry and weighty handle. KUATA's adaptable nature allows it to blend and work its way into most schemes, indoor and out.
- **Application:** Made from 100% Olefin, KUATA's multi-directional, contrasting textured yarns make it an ideal choice for any interior and exterior situation. Bleach-cleanable with an anti-mildew treatment, easy-clean Halo properties and heavy commercial rating; KUATA is perfectly suited to the likes of alfresco living situations, cushions and upholstery.
- **Colourways:** KUATA's 15 sku colour palette offer an option for most schemes and applications with its contrasting, tonal texture. Pumice, Gull and Sand are fantastic for blending in the earthy, natural hues. Bold and bright - Reef, Sunshine and Lobster add convivial, contrasting colours. Orca, Marine and Driftwood offer users a more contemporary and cultivated palette. Carefully curated, KUATA adds textural colour that complement the majority of our existing outdoor collections.
- **Rating:** FR tested to AS1530.3 standards with an Oeko-Tex certification, KUATA brings chunky, textural contrast to any situation - from residential outdoor dining to commercial indoor and outdoor upholstery. KUATA's applications are countless and worry free with its anti-mildew treatment and bleach-cleanable Warwick Halo properties.
