Lomani

Lomani Collection Hanger

Insure against the outdoor elements with our new Lomani Collection.

Combining our successful outdoor plain fabrics onto one concise hanger, our already successful Kona, Noosa and Lustrell Anchor, are joined by new plain, Lomani.

As part of our SUNDEC outdoor range, Lomani, Kona and Noosa are suitable for both outdoor and indoor applications; developed specifically to withstand commercial sunlight exposure requirements, mould and mildew growth, chlorine and general wear and tear. Whilst Lustrell Anchor achieves all of this, but with the addition of resistance to stains, scratches, and scuffs.

The Lomani hanger offers a plain texture for every need; Lomani, a textured marled effect; Lustrell Anchor, a marine/automotive vinyl; Kona, a simple but effective flat weave; and Noosa a sophisticated two-tone weave. All will add liveliness to your whatever your setting

Each design is available across 13 fresh colour palettes; ranging from classic neutrals, to playful brights. Additionally Kona, Lustrell Anchor and Noosa have new colour additions.

Create beautifully coordinated spaces, with effortless maintainence, no matter the conditions.
