

WARWICK

THE ART OF RELAXED TEXTURE IN EVERY LAYER – MACKAY By Warwick

Subtle comfort meets bold texture in MACKAY, designed with a relaxed aesthetic, the look is contemporary with an organic appeal that embodies a beautiful, lived-in feel.

- **DESIGN:** The composition of MACKAY is a solid, piece-dyed drapery featuring a fancy, textural slub yarn that gives it an organic, natural fiber look. This effect adds an elevated dimension to the weave, imparting a weight that feels both homely and modern, with timeless longevity.
- **APPLICATION:** Available as a continuous, 300cm wide solution, MACKAY'S relaxed presentation is practical, versatile and style-centric. Install as a flowing backdrop or a focal point drawing the eye, its understated sophistication will effortlessly elevate a rooms ambiance while functionally providing warmth, sound dampening and blocking direct light.
- **COLOURWAYS:** The MACKAY colour palette contains a vast array of core neutrals to suit all room base colour palettes whether they are warm or cool toned. Additional pigmented colours have been included enhancing the design opportunities with a spectrum of darker colours for a classic elegance and autumn tones for a charming palette that will effortlessly blend throughout the home and each space.
- **RATING:** Certified for quality management system ISO9001, Oeko-Tex certified and AS1530.3 and AS/NZS 1530.2 fire rated.
