

# WARWICK

## Manali

## Classic Beauty

Plain Hanger with texture close up

Every element of our Manali Collection inspires a sense of classical beauty; time honoured tradition, and quality workmanship. Perfect for interiors that demand respect.

Hero designs Manali and Kanda offer two amazing looks which work perfectly together or as stand-alone designs. Manali is a single colour crewel while Kanda offers a three dimensional geometric tile option. Both designs are embroidered on a natural blend base cloth and will make a statement in any window, as a decorative scatter cushion or show stopping lamp shade.

Co-ordinate stripe Bellary should not be overlooked, this Australian Made, multi coloured, flat woven stripe is dual purpose for drapery and Heavy Commercial applications as well as being certified for Oeko Tex certification.

Gaya and Liam are two well considered plain options which give an option for any environment. Gaya's natural blend is a perfect base cloth match to Kanda and Manali. While Liam is a highly durable all-purpose soft touch plain which has a subtle textural surface which gives an option for any high wear areas.

With four traditional colourways of Oatmeal, Sunshine, Shiraz, and Indigo it's hard to pick a favourite.
