**MAZZA**  
MANISA . MAZZA

## CONTEMPORARY DESIGN IN POPULAR SHADES - MAZZA by Warwick

Overview: MANISA and MAZZA offer durable, practical and functional plains with a super soft touch and sense of depth that oozes confidence and invitation. The fabrics' contemporary colourways makes them relaxed, inviting and transitional, bringing a soft aesthetic to both residential and commercial spaces.

- **Design:** The texture and weave construction of these refined materials makes them highly practical and functional and can be incorporated into any interior with comfort and ease. MANISA is jacquard woven with fine chenille, which makes the fabric smooth and plush whilst MAZZA adds dimension and tone-on-tone visual interest with its wrap knit and high-tech sublimatic heat transfer print.
- **Application:** MANISA has a soft, dry, mottled effect, while MAZZA offers a dry sheen. Their lush finishes and Halo characteristics make them both ideal for a wide range of residential and commercial purposes. Each of the fabrics are comforting, forgiving, easy to clean and durable yet still soft to the touch.
- **Colourways:** The palette features 17 colours across both qualities that move from rich earthy tones to sophisticated pops of colour. Each combine beautiful shades with a striking aesthetic that exudes a rich opulence and sophisticated elegance with a perfect hint of modernity. Nine timeless neutrals include Espresso, Fossil and Stone, which help to create a casual refined look; six fashion forward colours add personality, whilst Spice and Peacock are vibrant jewel tones.
- **Rating:** Featuring Halo characteristics of enhanced durability and easy cleanability and Oeko-Tex certification, MAZZA's fire tested qualities and complementary colourways create a very versatile collection that is ideal for upholstery purposes in residential and commercial settings.
