

WARWICK

FEEL AT EASE WITH RELAXED, COASTAL INSPIRED SHEERS - APOLLO by Warwick

Bring the beauty of the seaside indoors with APOLLO. Named and inspired after three idyllic beachside towns in Victoria, Australia, APOLLO is a contemporary collection of patterned sheers that are perfect for creating relaxed environments with a Hamptons feel. Self-weighted with a continuous 300cm wide width, this collection will display beautifully in any coastal residential or casual commercial setting.

- **DESIGN:** Contemporary with a natural appearance, APOLLO is a yarn dyed, woven sheer with a dry, matte finish. Continuous and embodying a raw, linen-look and feel, this collection features three classic, small-scale patterns with APOLLO bringing a multi-tone plaid; MARENGO, a simple stripe; and SHELLY, a check that is ideal for a rustic interior.
- **APPLICATION:** Relaxed in style, APOLLO is perfectly suited for a Hamptons aesthetic and calming moods. Self-weighted and FR tested to AS1530.3 standards, APOLLO offers a generous 300cm continuous wide width, making it an ideal range to create casual drapery, as well as rustic Roman blinds and lampshades, in contemporary residential and commercial spaces alike.
- **COLOURWAYS:** In four timeless colourways that mimic soft hues found by the seaside, this collection offers a versatile balance of warm and cool tones that will suit a myriad of interiors — especially coastal themes. Alabaster and Dune offer warmer neutrals inspired by the sandy Australian coastline, while Amalfi brings a cool blue, reflecting the ocean. On the darker side of the palette, Gull is a deep charcoal that was influenced by a stormy, rocky cliff face.
- **RATING:** This collection of self-weighted, 300cm continuous wide width patterned sheers is perfect for those wanting to create a relaxed, Hamptons inspired environment with an organic appearance and homely feel. With an AS1530.3 fire rating, APOLLO is a timeless collection both in its style and colour palette that will bring a sense of ease wherever it is featured.
