MARZANO

SOPHISTICATED SHIMMER WITH A TIMELESS EASE – MARZANO by Linia

Marzano reimagines the sheer with a subtle lustre and graceful flow, its metallic character offering an artful balance of restraint and radiance.

Design: Woven in Turkey with 53% linen, MARZANO has a rippling shimmer that is reactive to light—catching and diffusing it softly across the surface to create shifting highlights and a subtle, liquid-like glow. The appeal is elegant, but the outcome is informal, with an aesthetic that is modern and quietly futuristic.

Application: Ideal for diffusing harsh sunlight, MARZANO softens each space while maintaining a sense of modernised elegance. It can be effortlessly layered with heavier curtains for added insulation and enhanced control over light and privacy. Available in a 300cm wide width format, it offers versatility wrapped in metallic beauty.

WORKROOM NOTE: Puddling is preferred to compensate for potential dropping due to weave construction.

Colourways: MARZANO'S palette draws from the natural beauty of metallic elements where soft, light-reflective shades have a luminous clarity and reminiscent of pearl shells and sparkling quartz. Darker options take on a mineral-rich earth and burnished metal palette which bring understated drama and opulence.

Rating: Yarn dyed and free from harmful substances with Oeko-Tex certification.
