Naomi

Stylishly Versatile

Naomi Collection Hanger

The versatility of our Naomi Collection is deceiving at first glance. Naomi and Noelle offer two transitional designs which will fit both classic and modern interiors and perform in both drapery and upholstery application. Reaffirming, the only limit to this collection is your imagination!

This impressive and luxurious jacquard quality presents an embroidery effect. Designs Naomi, a naive floral with matching stripe Noelle are woven on a Polyester/Cotton blend creating a beautiful natural fibre look, with the added benefit of great performance and durability. Both designs meet Drapery / Heavy Domestic / General Commercial ratings.

Naomi and Noelle co-ordinate with the already popular plain Liam, which has been specifically re-coloured for this collection. Liam is a highly durable all-purpose soft touch plain which has a subtle textural surface which gives an added option for any high wear areas.

Available in six strong colours offering three classic neutrals, Ivory, Pewter and Ebony and three on trend fashion colours Zest, Sky and Coral.
