## A FUTURISTIC TAKE ON ANIMAL PRINT - NIKITA by Warwick

Create a new world with reimagined animal prints. Inspired by the digital world, NIKITA is a contemporary take on traditional crocodile print that embraces the rise of technology. Impactful in design and colour, this collection will make a statement in modern residential and commercial spaces.

- **DESIGN:** Reinterpreting a classic animal print with a futuristic effect, NIKITA is a jacquard woven velvet with a digital print overlay which incorporates multiple colours, creating a finish that is unique and eye-catching. Soft touch with a luxurious, high-end look and designed in our Melbourne studio, NIKITA offers a creative and dramatic take on a reptile scale print where its multi-colour and metallic-like appearance provides an other-worldly experience. This collection also features CASIMIR — a complementing plain velvet with a lustrous sheen that will enhance this design for an opulent style.
- **APPLICATION:** Heavy Commercial, NIKITA is ideal for creating surreal environments and bringing energised moods to an array of spaces, including moody nightclubs, lavish restaurants, or extravagant lounge rooms. Captivating and durable, NIKITA's striking pattern and colour makes this collection perfect for creating exquisite sofas and ottomans, as well as evocative cushions and lampshades.
- **COLOURWAYS:** In five impactful colourways, from mineral to jewel tones, NIKITA isn't afraid of being bold and eccentric — it welcomes creativity and will suit a myriad of styles. Rich and earthy in tone, Cocoa will add the perfect amount of warmth to an interior, while Galaxy brings a gorgeous, galaxy-like style with strong pops of pink and purple hues. For a cool, electric feel, Sapphire is a classic blue with grey undertones. On the more neutral side, Mineral offers a grey option with subtle hints of green, teal and pink for multi-faceted appearance, whereas Onyx provides a dark, moody alternative with less colour, but more tonal variation.
- **RATING:** NIKITA is a statement collection that is suitable for residential and heavy commercial applications. Opulent and exuberant, NIKITA's unique design and eye-catching palette will create an array of looks and themes — from dramatic and luxurious, to a futuristic aesthetic.

DESIGN	USAGE	COMPOSITION	COL CODE AUS/NZ
