## MID-CENTURY RE-WILDED WITH TEXTURE – MISHKA by Warwick

Trading polished perfection for undulating texture and wilder-worn colour. MISHKA is a combination collection that honours the modernist design aesthetic of mid-century, but shakes it up with distinctive character and natural irregularity.

- **DESIGN:** Together offering a dialogue of texture, MISHKA and TUNDRA form a tactile pairing defined by contrast – subtle yet striking, effortless yet intricate, proof that texture speaks in more than one voice. MISHKA, the softer of the two, is crafted with a shearling-like finish that evokes a fleecy warmth that is boutique and cosy. TUNDRA is meticulously yarn-dyed and woven with specially textured yarns, resulting in organic tonal shifts and a terrain-like surface with raised, pebble-esque dimension.
- **APPLICATION:** Perfect for both residential and commercial use with the added benefit of the WarGuard treatment, MISHKA and TUNDRA offer durability with an avant-garde edge ideal for design-led households, stylish corporate environments, and inspiring educational spaces. WarGuard is at the forefront of green technology, using a water-based formula that's free from harmful chemicals.
- **COLOURWAYS:** Combining naturistic colours and textures, the palette is both nostalgic and modern, layered with tones that reflect earthen pigments, botanical earthiness, and twilight hues. Each combination echoes the landscapes that inspired them, while an underlying edge of design-led sophistication and architectural refinement makes the collection perfectly suited to high-end, contemporary spaces.
- **RATING:** Heavy Commercial rated with Oeko-Tex certification, AS1530.3 fire rating and the protective confidence of the WarGuard treatment, guarding against stains without harmful chemicals. Mishka is also part of the Halo brand with easy-clean properties.

SPECIFICATIONS			FR AS 1530.3 INDEX RESULTS			
DESIGN	USAGE	COMPOSITION	IGNITABILITY	SPREAD OF FLAME	HEAT EVOLVED	SMOKE DEVELOPED
MISHKA	Heavy Commercial 50,000 Martindale	100% Polyester	11	0	4	5
TUNDRA	Heavy Commercial 60,000 Martindale	93% Polyester 7% Cotton	13	9	5	6

### WarGuard Treatment

Applied at the mill, WarGuard is a non-toxic treatment formula at the forefront of 'Green Technology'.

Using a specialised submersion bath or multi-stream fibre coating system, WarGuard forms an invisible barrier around each fibre, reducing stain visibility and assists with practical and convenient cleaning.

The WarGuard treatment is one of the cleanest on the market and is PFOA and PFOS free as well as flurochem and carcinogenic free.

Available on a selection of stocked residential and commercial fabrics, WarGuard products are ready for dispatch with no waiting times.
