

WARWICK

REVAMPED, REWORKED & REIMAGINED - HARVEST by Warwick

Overview: Three classics from the Warwick range have been reworked and relaunched in a combination hanger, becoming your core textured triple weave offering. Complimenting one another HARVEST, KOKOMO and TUSSAH are perfect for co-ordinating colour schemes or stand-alone commercial and residential applications.

- **Design:** Featuring three proven Warwick designs: TUSSAH, a reversible plain weave with a faux silk look and subtle matte slub. HARVEST offers a plain weave with a chunky two-toned texture. KOKOMO has a multi-toned, directional pattern constructed from the cationic yarns in its satin weave. These three qualities have been brought together with additional colourways to bring you an ideal selection of complimenting commercial and residential drapery fabrics.
- **Application:** This composite collection of triple weaves brings together timeless, textured plains with fantastic light dimming capabilities to both residential and commercial drapery environments. Complimentary and contrasting colours add texture and interest to any space in a contemporary and classic style. TUSSAH has an organic and raw silky look for more classic spaces. HARVEST's dry, natural look has a casual and more urban feel to it. KOKOMO is a transitional blend of the two, tying the range together with its lustrous sheen and directional pattern. A versatile and functional drapery hanger that is also perfect for cushions and bedspreads to really bring together a scheme.
- **Colourways:** This range is packed with commercial neutrals, classic tones of Snow, Ivory & Oatmeal can be incorporated into any existing scheme. Hues of Driftwood & Mink bring a deeper contrast and warmth. Dove, Pewter & Silver offer a useable palette, integrating into any interior.
- **Rating:** Light dimming, FR tested triple weaves. HARVEST, TUSSAH & KOKOMO offer a variety of looks in a collection of usable colours. These Warwick favourites create a range of classic and contemporary moods by adding tone with textural interest.
