

WARWICK

TACTILE TEXTURES with CLARENCE by Warwick

Overview: Small-scale designs and classic textures are combined in Warwick's newest release, CLARENCE. Boasting a strong neutral colour palette and 3 unique designs, the range can be mixed and matched with both traditional and contemporary interiors for an effortless style statement. Featuring a dry woven tactile quality, with a soft handle, CLARENCE is a multipurpose range that will add a sophisticated accent to drapes, cushions and upholstery.

- Inspiration: Current texture trends and small-scale designs with a slightly masculine edge were inspiration for this collection.
- Application: Created to provide multiple options to coordinate across both drapery and upholstery applications, CLARENCE provides a sense of freedom allowing for a relaxed and natural aesthetic across drapery, seating, ottomans, cushions and lampshades.
- Design: Geometric designs are layered upon tactile textures in a range of contemporary hues to create a beautiful finish. DENNIS, a textured plain, WALTER a classic herringbone, and CLARENCE a small scale geometric work effortlessly together or make standalone statements.
- Colourways: Offering a contemporary colour palette, each design is offered across warm neutrals in Flax and Driftwood; cooler tones of Cascade, Platinum and Silver; and dark inky hues of Charcoal, Ebony and Slate, all adding a touch of sophistication to any interior.
- Rating: With Oeko-Tex certification and FR rating, CLARENCE is ideal for commercial and residential interiors. Suitable for both drapery and upholstery applications, CLARENCE is both decorative and functional.
