

WARWICK

SHEER DRAPERY EDIT
2025 V1.0

Sheer Scale Guide

Our sheer scale guide has been curated to assist with selecting the preferred level of transparency when choosing sheer drapery.

We have categorised our sheer qualities in 3 groups:

SHEER SCALE | ONE

PRIVACY SHEERS

Enhanced privacy control

A tighter weave construction and increased thread thickness reduce light penetration

Obscured visibility

The fabric creates an opaque barrier, allowing only shadows and faint outlines to be seen

SHEER SCALE | TWO

SEMI-SHEER

Soft light transmission

A lighter-weight construction and increased weave openness allow more light to filter through

Partial privacy

People and objects remain partially visible, with details varying based on light diffusion and distance

SHEER SCALE | THREE

SHEER

Maximum light transmission

Constructed with ultra-lightweight fibres and a more open weave, allowing unfiltered light to pass through

Limited privacy

People and objects remain clearly visible, with only finer details subtly obscured

SHEER SCALE **ONE**

Since 1966 Warwick have supplied fine furnishing fabrics which have been quality tested to world standards for performance, durability and safety.

For a period of three years, for both domestic and commercial applications, we guarantee to replace any fabric which is found to be faulty as a result of manufacturing defect and which has been used in accordance with our performance ratings and care instructions.

The Warwick Quality Guarantee is additional to all statutory rights and remedies that are available to our customers under Australian Consumer Law.

In the event of any fabric claim Warwick customers will be provided with a comprehensive service form to be completed and returned to Warwick to facilitate prompt processing.

Full terms and conditions of the Warwick Quality Guarantee are available upon request.
