

Usage Guide

TexDefend Fabric & Upholstery Protector

TexDefend is a high-performance, non-toxic fabric and upholstery protector that forms a clear, breathable layer to repel liquids and block dirt penetration. Its hydrophobic and oleophobic performance helps protect textiles while allowing fibres to breathe and aerate.

Where can TexDefend be used?

TexDefend is suitable for couches, chairs, curtains, carpets, rugs, car seats, pet bedding, clothing, footwear and bags. It can be used on a wide range of fabrics and upholstered surfaces, provided they meet the recommended usage guidelines.

Key Benefits

- ✓ Repels water, liquids and dirt
- ✓ Clear, undetectable finish
- ✓ Helps extend textile lifespan
- ✓ Mould resistant
- ✓ Non toxic formula
- ✓ Australian made

BEFORE YOU BEGIN

Pre-Test Before Use

Always test a small inconspicuous area before use. Apply the spray then use a white microfibre cloth to dab the area and check for colour transfer. If prominent transfer is present, or appearance changes when dried, cease use.

Coverage

60mL to 100mL per m². Approximately one 500mL bottle covers 2 to 2.5 seater couches. TIP: Treat the areas that get the most use: seats, seat backs and arms. You do not need to treat the entire item.

How To

1.Prepare

Prepare the surface to be treated by vacuuming and ensuring it is clean and dry.

2.Spray

Spray onto the surface approximately 20cm from the fabric to fully dampen, but do not saturate or allow the formula to pool. For fibrous textiles, gently use a soft bristled brush to agitate the solution into the material.

3.Dry & Cure

Touch dry in 2 hours. Allow to fully dry before use (at least 24 hours). Re-apply when coating begins to deteriorate or after the fabric has been washed or dry-cleaned.

Usage Restrictions

Not suitable for jute, silk or fibres that naturally watermark when exposed to water. Safe for use on wool, however wool is inherently water-resistant, so the formula's effectiveness and yield may vary. Not for use on textiles or products that are "Dry Clean Only". Do not thin with water or other waterproofing products.

WARNINGS

KEEP OUT OF REACH OF CHILDREN. If poisoning occurs, contact a doctor or the Poisons Information Centre (Australia 131 126 | New Zealand 0800 764 766). EYES: Remove contact lenses and flush with water for 15 minutes and seek medical attention. IF SWALLOWED: Do not induce vomiting; rinse mouth with water while seeking medical attention. Do not breathe in the spray. Store in cool conditions for up to 12 months once opened.

SENSITIVE SKIN

Avoid direct contact with skin as it may dry the skin out, use gloves to ensure contact minimises dryness.
